**Subject: Application for Talent Pool – Graduate Engineer Trainee / Fresher |  
Req ID 1254**

Dear Hiring Team,

I am writing to express my interest in the **Talent Pool – GET / Fresher** opportunity (Req ID: **1254**) at **NEC Corporation India Private Limited**. I am currently pursuing a **Master of Computer Applications (MCA)** and am eager to begin my professional career with an organization renowned for its global impact, technological excellence, and long-standing contribution to India's digitization journey.

With a strong academic foundation in **computer science fundamentals, object-oriented programming, data structures, databases, and software engineering principles**, I bring a keen analytical mindset and a passion for building reliable, scalable technology solutions. Through academic projects and hands-on training, I have gained experience in **Java-based development, RESTful services, SQL databases, and version control systems**, while consistently emphasizing clean code, documentation, and best practices.

What particularly attracts me to NEC India is its leadership in **IT and network integration**, its work across critical domains such as **public safety, transportation, smart cities, and digital platforms**, and its commitment to innovation through Centers of Excellence in areas like **analytics, big data, biometrics, and mobility solutions**. I strongly resonate with NEC's vision of empowering people and society through technology and would be honored to contribute as a fresher ready to learn, adapt, and grow.

I am open to opportunities across NEC India's locations and roles aligned with my skills and aptitude. I value teamwork, continuous learning, and accountability, and I am motivated to build a long-term career with NEC while delivering meaningful impact.

Thank you for considering my application. I would welcome the opportunity to be evaluated for suitable entry-level roles and to further discuss how I can contribute to NEC India's mission.

Yours sincerely,

**Sumanta Jana**

MCA | Graduate Engineer Trainee / Fresher
